SKILLS & TOOLS

- Java
- HTML & CSS
- VS Code, Eclipse, GitHub
- MS Word, MS PowerPoint
- Cyber Security fundamentals
- Generative AI concepts

CERTIFICATIONS

- Java Programming Course
- NPTEL – Internet of Things
- Generative AI (APSCHE)

Languages: Telugu (native),
English (proficient),
Hindi(basic)

EDUCATION

- B. TECH – CSE (CYBER SECURITY).** Prakasam Engineering College. **2022–2026**
CGPA: 6.7
- INTERMEDIATE EDUCATION.** Sri Chaitanya Junior College. **2020–2022**
CGPA: 7.6
- SSC.** Siddardha High School. **2019–2020**
CGPA: 9.8

INTERNSHIPS

- GENERATIVE AI INTERN at APSCHE (Andhra Pradesh)** **2026**
 - Learned Generative AI and Agent AI concepts; explored prompt engineering and LLM workflows.
- JAVA PROGRAMMING INTERN at ExcelR EdTech (India)** **2025**
 - Worked on core Java and OOP concepts.
 - Improved coding and problem-solving skills.
- CYBER SECURITY INTERN at ExcelR EdTech (India)** **2024**
 - Learned security principles and defensive techniques.
 - ♦ Developed awareness of secure computing practices.

PROJECT

- ENHANCING DATA SECURITY IN IOT HEALTHCARE SERVICES USING FOG COMPUTING.** **2026**
 - Designed and developed a secure IoT healthcare system leveraging fog computing architecture.
 - Improved data privacy and reduced latency using AES encryption algorithms.
 - **Technologies:** Java, IoT, Fog Computing, Cloud.
- SMART BANKING MANAGEMENT SYSTEM** **2026**
 - Built a banking application with login, deposit, withdrawal, and balance tracking features.
 - Developed responsive frontend pages and integrated MySQL database connectivity.
 - Used Java OOP concepts, Spring Boot, and MVC architecture for backend development
 - **Technologies:** Java, Spring Boot, MySQL

ACHIEVEMENTS

- Completed internships in Cyber Security, Java Programming, and Generative AI.
- Developed and presented an IoT healthcare security project as final-year capstone.
- Earned certifications from Microsoft (Power BI) and NPTEL (IoT).
